OMNI Center Special Movie Showing

Nagasaki Journey: Aftermath of the Bombing

Today -- August 18, 2013
6:30 pm @ OMNI Center

Three people who saw... one an American soldier. Their stories are chilling.

Video Underground was pre-empted by Hiroshima Nagasaki Day last week, but this poignant documentary is so relevant that we really would like to share it with you. Very old footage of survivors of the bombing, and a soldier who went in immediately after, give a sense of the reality of the aftermath. Lively discussion will follow.

Illustrated Transformation

There is a way forward, and we have options

Sunday August 25, 7:00 pm @ OMNI

Gladys Tiffany presentation about the values shift now going on in America, to open a dialogue among progressives. Understanding the values we already share can help us select the options that move us forward. We need to have this conversation together. Things are moving fast, so this is a good time to begin.

Based on work by linguist George Lakoff, and others, that presents compelling, research-based evidence, and demonstrates how close we are to shifting this troubled world in a more human- and earth-friendly direction.
