September 19, 2013

Hello fellow Monsanto activists!! I am writing to tell you about an opportunity to take part in the planning committee for the second March Against Monsanto taking place in Fayetteville on Oct. 12 at 2 p.m.

Taking part simply means that you attend one to all of the weekly meetings taking place until the event (tentatively Tuesdays at 11 a.m.), and throw out your ideas on possible locations, ways to get attention, educational materials/activities, signs, media coverage, etc. The last march was one of the largest in Fayetteville's recent history and we want to make it even bigger this time around.

This march is part of an international movement that will include cities and citizens from around the world, showing just how much support and interest there is in this issue/topic. We would love for you to join us and be a small or large part of helping bring these issues to the larger Fayetteville/NWA public.

If you are unable to attend any of the meetings but have ideas you'd like to share, please feel free to contact us by responding to this email address, or posting on the Fayetteville, Ar March Against Monsanto event page. (<https://www.facebook.com/events/289399344525618/>)

Also, if you are not as familiar as you'd like to be, or want to freshen up on the issues or learn more about the march, visit www.march-against-monsanto.com. See photos from May's event at www.flickr.com/photos/thefreely/sets/72157633727941229/ (Most of you are probably in these photos since this email list came from May's event!

The media and government is ignoring the problem, so it is up to us to bring it to light. Thanks for taking the time to read this plea for participation and we look forward to working with you!!

-The Fayetteville March Against Monsanto Team
