## Annual Members and Friends Gathering!

Saturday, February 1 -- 5:30-8:30 pm  
Mt. Sequoyah Retreat Center, Dining Hall

### *The Sweet Music of Peace...*

Fayetteville is so lucky to have the kind of talent that wanders around thinking up incredible songs about peace, justice and a thriving earth.

Kelly Mulhollan and Fernando Garcia will be emcee-ing the program Saturday night. They gave us a few notes about the music and musicians who we'll hear. Just look at this and drool until you get to hear them.

## Don't Stop Please

They're the buzz all around town, recently relocated from Conway. They wanted to be where the real action is, so they came to Fayetteville, of course. They're often seen as a large ensemble, but the wing that will be performing for us is the duo often known as "Handmade Moments".

## Air Loom

Does he look like a physics professor to you? Dana and Jackson have a magical chemistry that vibrates on stage. She's part of the Idlet clan of Trout Fishing fame (also long-time OMNI members), but she has enough talent to hold her own without parental credentials.

## And Inimitable Papa Rap

The irrepressible champion of peace and justice, and vibrant bridge between the Latino and Anglo communities. His Caribbean-rap sound is distinctive and exciting, and has been an important part of his appeal to the young people he has inspired and mentored over the years. Papa Rap is irresistibly interactive. You already know you're gonna love him.

**Also grateful to Mount Sequoyah** for hosting us at no charge. It's a very comfortable venue for this event. Bet you like it too.

*Acting in the Present...Working Toward the Future...Together*

Annual Meeting also features a chance to see your peace friends, OMNI programs that have tables for information, and music from **terrific local musicians**. Always fun. REALLY fun!

Also your chance to support OMNI, while you have a blast. \$10 suggested donation, kids under 5 free, nobody turned away.

## Climate Change Book Forum

**Sunday Feb 2** - 1:30 pm, Fay Public Library Walker Room. This month's book is "The Plundered Planet" by Paul Collier. The economics of managing global resources for climate stability. This is a controversial book taking a position from more traditional economics, that should generate some excellent conversation. Discussion facilitated by Phil Zimmerman

If you wish to read the book, OMNI still has one copy to loan. Contact the office at 479-935-4422.
