## Freedom From Religion

A chance to hear the other side of the story

Whether you are religious or secular some issues are important to all of us.

Barbara McClelland will lead a discussion about what atheism really is. She says we may be surprised.

## **Being the Change**

**Sunday August 25**

**7:00 pm**

**OMNI Center**

A huge values shift is going on in our country, and you are part of it. Now there is scientific research that backs up this claim, and it's exciting.

Based on studies by linguist George Lakoff, you'll see the impact already occurring that shows how to use this shift to make our world more human- and earth-friendly. Gladys Tiffany will present new information and discussion. Progressive people need to know this, to intelligently move forward in a polarized world.

**OMNI Center for Peace, Justice & Ecology actively  
educates, empowers and connects to build  
a nonviolent, sustainable and just world.**
