

# OMNI 350 announcements

## OMNI Center for Peace Justice & Ecology

No. 1, 2 JAN 2014

**CLIMATE CHANGE BOOK FORUM**  
Sunday, January 5, 2014, 1:30 PM  
Fayetteville Public Library, Walker Room

*Facilitated by Lolly Tindol, Elana Harrison and Shelley Buoniauto*

### **ENERGY: Overdevelopment and the Delusion of Endless Growth**

**ENERGY**, a series of essays collected by Richard Heinberg and the *Post Carbon Institute*, offers a compelling introduction to energy literacy, helping readers see through industry hype and reject political rhetoric inconsistent with the realities of our energy predicament. For activists already engaged on these issues, Energy will deepen one's thinking about the philosophical underpinnings and trajectory of modern, industrial growth society."

## WHY 350?

Our Newsletter, 350PPM (parts per million concentration of carbon dioxide in the Earth's atmosphere) seeks to educate the public about the impending crisis of global warming and climate change. We must reduce greenhouse gas emissions and return the levels of CO<sub>2</sub> in the atmosphere to no more than 350 parts per million. It is only at these levels or below that the climate and environmental systems of the earth as we know them can be maintained. As a point of reference it was 1988 when the earth's atmosphere contained

350 PPM of CO<sub>2</sub>.
