CLIMATE CHANGE BOOK FORUM & CITIZENS CLIMATE LOBBY MEETING

CLIMATE CHANGE BOOK FORUM

Sunday, 6 April, 2014, 1:30 PM

OMNI Center

Dr. Song Feng, Atmospheric scientist in the Dept. of Geosciences at the University of Arkansas will speak on:

The observed and projected future changes in climate extremes in the great plains (focused on Arkansas).

FAYETTEVILLE CITIZENS CLIMATE LOBBY

Wednesday, April 9th, at 7 pm at OMNI Center

WHY 350?

Our Newsletter, 350PPM (parts per million concentration of carbon dioxide in the Earth's atmosphere) seeks to educate the public about the impending crisis of global warming and climate change. We must reduce greenhouse gas emissions and return the levels of CO₂ in the atmosphere to no more than 350 parts per million. It is only at these levels or below that the climate and environmental systems of the earth as we know them can be maintained. As a point of reference it was 1988 when the earth's atmosphere contained 350 PPM of CO₂.
