Join millions worldwide to STAND UP and TAKE ACTION against Poverty and for the Millennium Development Goals.

Stand Up is a global mobilization to end poverty and inequality and for the Millennium Development Goals (MDGs). Last year, 43.7 million people joined Stand Up worldwide, setting a new world record. This year, we are asking people to Stand Up and Take Action on 17–19 October 2008, to ensure governments worldwide hear our demands to end poverty and inequality. Help us make this year’s Stand Up the biggest mobilization against poverty ever.

UNIFEM is participating in the Stand Up campaign once again this year because gender equality and women’s empowerment are crucial to overcoming poverty and achieving the Millennium Development Goals (MDGs). Please join UNIFEM’s Stand Up Online action to call on world leaders to empower the women that power the global economy.

Thus far, 399 persons have “stood up” via this web page.

**Why Stand Up?**

In 2000, leaders of 189 countries signed the Millennium Declaration agreeing to do everything in their power to end poverty. They pledged to do this by achieving the Millennium Development Goals, a roadmap to end extreme poverty by 2015. Still, every day, 50,000 people die as a result of extreme poverty and the gap between rich and poor people is increasing. Nearly half the world’s population live in poverty, 70 percent are women. We have the power to change this. Campaigners worldwide will STAND UP and TAKE ACTION to push their governments for more and better aid, debt cancellation, education for all boys and girls, healthcare, trade justice, gender equality and public accountability.

**Gender Equality Now. Accelerating the Achievement of the Millennium Development Goals.** Attention to gender equality and women’s empowerment are essential to enable countries and the international community to achieve the Millennium Development Goals. A new resource pack published by UNIFEM explores and makes recommendations on the actions needed to accelerate the achievement of the MDGs; the progress made so far and the backlogs on gender equality; and the costs of prioritizing gender equality as well as the costs of failing to do so. read more »
